JAPS LAND BEHIND PORT ARTHUR

And May, Before Now, Have Effected the Occupation of This Great Stronghold

A SUCCESSFUL COMBINED ATTACK

Wholesale Decapitations and Hangings in Seoul By the Russian Authorities. Russia Cunningly Asks China to Make New Chwang a Neutral Port. Action of German Consul in New Chwang

Japs Bury a Traitor Alive.

Brutality of the Rear.

Seoul, March 21.—The Supreme Court here is clearing the Liao prison for wholesale executions nightly. In the last three nights six prisoners have been decapitated and 38 hanged. Many of these victims have been in jail for years without a trial. Now they have been hurriedly tried and condemned to execution.

Some were former students in Japan, and others were thieves, highwaymen, culprits of pure funds, political leaders and traitors. All suffer the same penalty of death, and the bodies are carried out, strings of ten or twenty condemned, bound together, refill the cells just vacant. It is probable the representatives of the foreign powers will investigate this and if justified, will take action. The prisoners are heavily guarded, as it is feared the Pedlar's Guild, which compose the city's roughs may force an entrance and liberate the prisoners.

Need More Substantial Aid.

St. Petersburg, March 21.—A report gained widespread credence among the peasants that Napoleon's ghost is waiting on the banks of the Amur to bring Russian troops to victory.

The report has fired the enthusiasm of the credulous people and has started the belief that Napoleon is Russia's good genius. Peasants have opened shrines to him and are confident the war will be brought to a glorious close.

Russia's Sly Move.

New Chwang, March 21.—The Guardian learns that Russia momentarily expects an attack and is energetically trying to induce China to apply to the powers for a declaration making the treaty port of New Chwang and both banks of the Liao River from sea to port, neutral territory. Russia has promised in the event of such a declaration to withdraw from New Chwang altogether.

So far China has refused to take any steps in the matter and it is considered that even if she did Great Britain and America would do nothing to help close this port, which is one of the gates by which Japan can enter Manchuria.

Germans Being Incited.

Yien Kow, March 21.—The German consul at a meeting of German subjects in New Chwang yesterday, notified them that they remained at New Chwang at their own risk, that in event of losses, the recovery of compensation was doubtful. The consul has notified the Germans that in the event of the Russians being defeated, the recovery of compensation for losses, even if possible, could only occur after the lapse of a long time, and that if Japan were defeated, recovery would be made sooner.

estimates will be taken up. The opposition held a caucus this morning, at which it was decided to make the advocacy of provincial autonomy for the Territories a leading feature of their policy with the intent of drawing western attention away from the Grand Trunk Pacific project.

LAID TO REST.

In Westminster Abbey. Thousands Witness the State Funeral. The King and Queen Attend.

(Bulletin Special Dispatch).

Montreal, March 22.—It is understood here that the Canadian Northern Railway Company has received favorable news from London, where Wm. Mackenzie has been engaged on an important financial mission.

It is said that the president of the road has succeeded in disposing of bonds sufficient to insure extensive construction during the next two years in the company's transcontinental plans.

(Bulletin Special Dispatch).

Ottawa, March 21.—Monday is private members' day, that is, the day is devoted to matters introduced by private members. Very little of this was ready so the sitting was short.

The Premier said he would arrange with the leader of the opposition for the discussion of the Grand Trunk proposals.

Tomorrow the auditor general's report will be brought down and the

HOCKEY CHALLENGE.

The boarders at the Criterion restaurant take this opportunity of challenging the Queens hotel hockey team to a friendly game of hockey on Thistle rink any evening that will suit the latter's convenience. Acceptance of this challenge may be addressed to the Bulletin office.

CRITERION BOARDERS.

USED ELECTRIC CURRENT.

A number of the water-pipes in the city were frozen yesterday and instead of being thawed out by building a fire about them, as has been done in the past, the ice was melted by means of an electric current. The two frozen hydrants were joined by means of a large electric light wire and as this completed the circuit, a powerful current of electricity flowed through the pipes. The ice gradually melted and the water soon ran freely. This device has been tried in many places and has proved satisfactory.

Continued From Page Two.

Are the seasons dry or wet? Last five years have been wet, former five years more uniform and drier than most known.

Should a man bring his family with him?

A western man might. An old country farmer should bring them out later.

What about farmers' wages?

Pays best to work for yourself. A raw green hand should make \$150 a month and can work up to \$18 a month and up.

What kind of persons will succeed the best?

Any sober, industrious man can succeed in agriculture, can do it.

Only men who go at farming as a business, not as a pastime, can get on. Success here means hard work and industry. Nature has supplied the raw material bountifully.

What are the prices of town lots?

\$50 to \$10,000 depending on the town and locality of it.

What show is there for bricklayers, painters, carpenters, etc.

Good in spring, summer and fall.

What is the average temperature in summer and winter?

Summer 55 to 65°. Winter, highest 55 above, lowest 35 below, averages winter about 35 above.

Rainfall in inches:

April	1.90	1.90
May	2.60	1.11
June	2.71	2.02
July	3.21	2.79
August	3.91	11.19
Snowfall	4.18	0.72

All the smaller fruits grow and yield well. Apples not grown, climate and soil not suitable. Corn is not being grown for garden use, a few years back, but is certainly good.

How deep do you get for water?

Twelve to eighty feet, depending on the locality. Water plentiful.

What is the average rain and snowfall?

Rainfall in inches:

April	1.90	1.90
May	2.60	1.11
June	2.71	2.02
July	3.21	2.79
August	3.91	11.19
Snowfall	4.18	0.72

What are your flour mills?

Yes, in each town end or two.

Does hog raising pay?

Yes, well. Mixed farming pays the best in this district.

How far do you have to go for fuel?

Cool and wood right at the door, except in the extreme east part of the district, where they are scarce.

Where can homestead entries be made?

In Edmonton district at Edmonton, Fort Saskatchewan, Ponoka, Wetaskiwin and Leduc.

PUBLIC SCHOOL CONCERT.

Nothing could have been more successful than the concert given by the pupils of the Edmonton public school in Robertson hall last night. The hall was packed and many could not gain admittance. The stage was prettily draped with red, white and blue streamers and flags and the entire program was presented without a hitch. The young people, without an exception, took their parts well and the audience seemed delighted with the entertainment provided.

The program was opened with a chorus, Red, White and Blue, by the school children. There were a large number of boys and girls in the chorus, who also assisted to a large extent in the cantata which was the second part of the evening's program. The chorus was heartily applauded. The second number was a well rendered recitation, The Polish Boy, by Miss Ethel Walker. This recitation was delivered in a most becoming and effective manner and its reception by the audience reflected great credit on the enterpriser. Corner Park played an excellent violin solo and was forced to respond to repeated encores. Next came a doll drill by sixteen little girls. In the general opinion this was the prettiest number on the program and was more than worth the price of admission alone. Sixteen little girls with their dolls went through a drill in splendid fashion. The floor work of the little girls was quite intricate and that it was carried out without a single false step is saying a great deal. The children were loudly applauded on finishing the drill. A splendidly rendered recitation, The Owl Critic, by Master York Blayney was followed by a club swinging by twelve young ladies of Mr. A. Hencher's class. The exercises were splendid and the audience insisted on their repetition. This brought the first part of the program to a close.

The second part was a cantata entitled An Irish May Day. It is a May Day scene and the children are playing. A visit from their uncle, Capt. Miles Fitzgerald, whose daughter Daisy had been stolen from him years before by gypsies, is announced. In the meantime two of Mrs. Carew's sons discover a white child in a gypsy encampment and rescue her. In her thankfulness Daisy is singing an old song when Captain Miles enters and after a while recognizes Daisy as his daughter, and a happy reunion takes place. The cantata is very interesting, and the boys and girls staged it very cleverly. Miss Lillian Watts made an excellent Mrs. Carew, while her daughters, Mary, Nora and Sheila—May Grant, Winnie Protheroe and Edna Grindley—took their parts exceedingly well. Helen Webster as Daisy, daughter of Captain Miles, was particularly good. Jennie Brandon as Bridget, an old servant took a rather amusing part very successfully and caused considerable laughter. Lucy Manuel and Fred Brandon, as Maurice and Gerald, were splendid. They were typical, everyday boys, taking the part to perfection. Walter Walker was very good as Capt. Miles Fitzgerald. The children's choruses were greatly enjoyed by all.

Miss Dorothy Huestis acted as accompanist throughout the evening and deserved great credit for the very efficient manner in which she carried out her part.

When one sees a school concert such as this one, he is often inclined to forget the tedious hours of study and rehearsal which preceded it. The perfection shown by the pupils is doubtless due to a very large extent to the thorough training by the

public school staff of teachers. The teachers deserve the greatest credit for giving the audience such a treat, and it must be a source of great satisfaction to them to know that their efforts have been so entirely successful.

The entertainment will be repeated in Robertson hall this evening and matinees will be given this afternoon at 2.30 o'clock.

FROM FORT McMURRAY.

The stormy weather that has been prevalent in Northern Alberta the last couple of weeks, has been severe enough to keep many freighters in the city and has prevented them from making their regular trips to Athabasca Landing. Very few women would care to risk a two weeks' trip by dog train in the weather. Miss Gordon, of Fort McMurray, who arrived in the city last week, did even more than this. She left Fort McMurray on March 1st and travelled with halfbreeds to Lac la Biche, where she spent the winter. He left Edmonton on December 12th and had a very enjoyable trip. He is greatly taken with California, its climate and its fruit groves, but would not care to make it his home. It is an almost ideal place for people of delicate health to live. The people there who have no other ambition in life like to loll in the sunshine. Mr. Neil is greatly pleased to get back to Edmonton, which he says is good enough for him.

ENGINEERS EXAMINATIONS.

An examination was held yesterday in the council chamber by Joseph Buxton, of Calgary, Inspector of steam boilers for the Northwest Territories. About thirty candidates wrote the examination in the different departments. The examination was for the purpose of giving engineers and apprentices an opportunity of qualifying for certificates under the provisions of the Canadian Boilers Ordinance. A number of candidates wrote who had held provincial certificates which had expired and had obtained either a first, second or third class certificate before continuing to act as engineers in the Territories, or being entitled to a second class certificate.

The names of the successful candidates will be published in a later issue of the Bulletin.
